

Projects Details

Projects' name:

SMASH – Smart Machines for Agricultural Solutions Hightech

Starting date:

02/01/2018

Grant supplier

Regione Toscana - Por CReO FESR 2014-2020

Total Funding Expected:

€950.000

Total Funding:

€200.000

PI:

Barbara Mazzolai

Description:

SMASH aims to realize a collaborative robotic ecosystem, to reach a sustainable management of cultivations. The project will provide technological instruments to face and solve issues regarding food safety and environmental sustainability through two case studies: grapevine and vegetables.

Regione Toscana
